DAILY GAZETTE.

NEWS OF THE DAY.

—Diamonds are dirt cheap in the African diamond fields.

—More reduction in the National debt—that is the road to resumption.

—Farmers are getting ready for State fairs and beginning to talk "hoss."

—In the north of England 50,000 men of the coal and iron trades are out of work.

—The miners in the anthracite region will not fight against fate. The reduction has been accepted.

—The daughter of the Duc de Montpensier has just received her betrothal ring from King Alfonso.

—A wealthy Baltimorean, who died the other day left all his property to his wife on condition she should not remarry.

—It is now supposed that Abraham was the original base ball player, as the scriptures say that he pitched in the wilderness.

—Miss Stag was married at Hornellsville, New York, recently. The bridegroom had engraved on the wedding ring:

Name ever deer to me.

—The Beaverwyck crew had a grand reception at Albany last night, upon their return home. The crew and boat were carried in triumph through the streets.

—New York *Dispatch:* If Professor Huxley can explain why an American barkeeper can put so much froth in a schooner of beer, his visit to this country will not have been in vain.

—The Western *Brewer* proclaims its objects: "It will preach the gospel of beer, a gospel good, wholesome, healthful, and invigorating, as against the gospel of Puritanism, of prohibition, of personal thraldom."

—The Western press is nearly unanimous in urging an adjournment of the Omaha Indian Commission until Sitting Bull shall have been driven to the wall and forced to surrender. Peace, it thinks, must be conquered on the Yellowstone.

—The English press is greatly interested in the shipment of beef packed in ice-chests from New York to Liverpool. If the experiment succeeds, American beef can be placed in the English market at a price 25 per cent. below the current rate.

—The Rev. Robert Colyer announced in Milwaukee last Sunday his belief in Predestination, and the *News* of that city is almost crazy about it, calling it "a moss-backed, sit-down-and-do-nothing thesis, mental anæsthesia, paralysis vaccine."

—President Grant's income as a farmer is nothing wonderful. It is reported that his farm has required a yearly outgo of $10,000 beyond receipts. It is now rented to two different persons for $2,300 a year. The net income, however, is only $1,500, for the taxes amount to $800.

—Mr. Gladstone received the news of Disraeli's elevation to the Peerage with equanimity. A correspondent announced the fact to him. "Well," said he, "I have won £5; a good old friend of mine was foolish enough some time ago to bet me £5 that I would be made a Peer before Mr. Disraeli."

—The Rev. Henry M. Field, editor of the New York *Evangelist*, hastened to celebrate the safe ending of his notable journey around the world by getting engaged to be married. The future Mrs. Field is Miss Fanny Dwight, of Stockbridge, Mass., an accomplished lady of one of the old and much-honored families of Berkshire.

—"I may some day stake my money on lotteries," remarked a man to a fruit dealer yesterday; "I may invest it in mining shares; I may put it up as 'margins' on grain, and I may even risk it in a three-cent daily; but," he continued firmly, "confusion overtake me if I'll ever invest in a watermelon without first plugging it!"

—McCall, the murderer of Wild Bill, has left the Black Hills. It is stated that, a few days after the mock trial, California Joe—who was not in the Hills at the time of the murder, and who was a warm friend of the murdered man—called McCall from his cabin and inquired significantly whether the air of that region was not rather light for him. McCall responded that he found it so, and thereupon took up his line of march for the States. It is believed that if California Joe had been present at the "trial" McCall would have been hanged.

—Many houses, and even whole blocks in the down-town part of New York, are said to belong to the ex-Empress Eugenie. They were purchased by third parties on the account of Napoleon III. Now we are told by cable that the ex-Empress has openly purchased for a Winter residence the villa of the Grand Duchess Maria at Rome. This seems to support the opinion of those who always declined to believe in the poverty of the Bonapartist family. We wonder whether Eugenia in her palatial residences ever thinks of the days when she inhabited premises near the Tuileries, in a hotel, where she was visited by her future imperial husband.

MUNICIPAL CORRUPTION.

The San Francisco Board of Supervisors Charged with Extravagance and Fraud.

SAN FRANCISCO, September 1.—The Grand Jury, in their report to-day, reflect severely on the majority of the Board of Supervisors for wastefulness and extravagance in public expenditures, awarding contracts for supplies at exorbitant figures, especially in connection with the new house of correction, and report that they have taken the testimony of credible witnesses, showing that privileges for the erection of frame buildings within the fire limits have been bought and paid for, and the traces of the crime covered by evasive answers amounting to perjury. The city press had previously animadverted severely on the conduct of the members of the Board, and the *Bulletin* this evening says editorially: The Grand Jury report is a sort of mirror in which the Board of Supervisors is reflected with a sharpness of character somewhat startling. It is a suspected body. Every vote and every proceeding will be watched now with the greatest interest. Several men have recently been sent to the penitentiary for administering public offices corruptly. Many of the present Board of Supervisors, in the light of the Grand Jury report, are candidates for the same institution.

ANTHRACITE COAL TRADE.

Miners Accept a Reduction of Wages—Another Schedule of Prices for Coal.

NEW YORK, September 1.—A dispatch was received by President Sloan, of the Delaware, Lackawanna & Western road, from the coal regions to-day, announcing that the miners had accepted the situation and gone to work at the reduced rate of ten per cent. in their wages. The Lehigh & Wilkesbarre Coal Company to-day issued a circular containing the following rates on board of vessels at Port Johnson, N. J.: Old Company's Summit lump, $4.00; Honeybrook Lehigh lump, $4.00; Wilkesbarre, $3.25; Old Company's Summit egg, $3.60; Honeybrook Lehigh egg, $3.60; Wilkesbarre egg, $3.50; Plymouth red ash egg, $3.50; Wilkesbarre steamer, $3.25; Old Company's Summit stove, $4.00; Honeybrook Lehigh stove, $4.00; Wilkesbarre stove, $4.00; Plymouth red ash stove, $4.15; Old Company's Summit broken, $3.60; Honeybrook Lehigh broken, $3.60; Wilkesbarre broken, $3.50; Plymouth red ash broken, $3.50; Old Company's Summit chestnut, $3.30; Honeybrook Lehigh chestnut, $3.30; Wilkesbarre, chestnut, $3.30; Plymounth red ash chestnut, $3.40.

Knocked Off a Railroad Train.

CLEVELAND, September 1.—On Thursday evening, as an excursion train on the Painesville and Youngstown railroad passed under a bridge near Painesville, Silas Coates and Elmer Hoard, who were riding on top of the train, were knocked off. The former was killed instantly and the latter badly hurt, and will probably die.

OMAHA, September 1.—A heavy northwest wind here yesterday has carried off nearly all the grasshoppers. It is impossible as yet to state what the damage done by them will amount to, but it is thought it will not amount to as much as predicted.

THE RECENT PRIZE FIGHT.

Additional Particulars of the Brutal Encounter—Weeden and His Second Arrested.

PHILADELPHIA, September 1.—The prize fight at Pennville yesterday is the prominent and exciting topic to-day, because of its brutality and its tragic ending, as well as because the parties participating nearly all belong here. The pugilists, James Weeden and Philip Walker, *alias* Keester Bob, resided in this city, Walker, who was barely twenty years of age, being a help in a foundry. They had fought once before, Weeden winning the battle. Both had been in training five weeks for yesterday's battle—Weeden at the house of John Clark, and Walker under the direction of Sam Collyer. Weeden is a native of England and Walker was of German extraction. The fight took place near Pennville, nearly opposite New Castle, Del., and was witnessed by about one thousand roughs, who openly defied the sheriff and his officers, and after the fight eluded them, coming up the river in small boats, and landing at various points. Seventy-six rounds were fought, but in the last one Walker was unable to strike a blow, and at its end he lay wholly insensible on the grass, and Collyer threw up the sponge. Walker did not revive, and died before he could be brought home. His body was found lying on the salt works wharf last night, the men who had brought it there having escaped. A post mortem examination held to-day indicates that death was caused by concussion of the brain. The officers have been hunting for the participants in the fight all last night and to-day, but so far only Jno. Clark, one of the chief promoters of the affair, has been arrested.

A report comes this afternoon that Weeden, Walker's murderer, is also dead of his injuries, having died at one of the city hospitals, but the intelligence is not confirmed.

NEW YORK, September 1.—Weeden, one of the principals in the fatal prize fight at Pennville, N. J., was arrested with his second, Watkins, in this city to-night.

THE INDIAN WAR.

Reports of Murders Confirmed—A Haying Party Massacred—6,000 Indians Absent From Red Cloud Agency.

CHEYENNE, September 1.—Special correspondence to the Cheyenne *Standard* from Deadwood, the 23d ultimo, confirms the death at the hands of Indians of Isaac Brown, Charley Holland, A. Smith, and Leon Mason. The first named was from Virginia City, a member of Lee & Brown, owners of one of the best claims in the Deadwood district, which has been averaging $1,000 a day for some time. Holland hails from Sioux City, Iowa, and Smith was a preacher, late of Kentucky. Leon Mason, of Denver, was killed while in pursuit of the party who killed Smith on the night of the 22d. Dan. Baum, of Cincinnati, was shot and killed by Jas. Young in a saloon in Deadwood.

News from Custer to the same paper gives the details of the killing of four men near that place on the 23rd, whilst *en route* to their hay camp. No names are given. A party pursued the Indians, who numbered by the trail twenty-two, and followed them to the hay camp, but the Indians had been there in advance, and had taken everything but a grindstone. The place where these men were ambushed was at the head of a long canyon running eastward. The Indians, hiding in the rocks, watched for their approach, although all were not killed at the first fire, as the bodies of two men were found in the rocks where they fled.

The complete census of Indians present at Red Cloud Agency, to whom rations will be issued in the future, falls short 5,000, and of grown males 1,000.

Recruits for various regiments in the field are daily arriving at Ft. Russell.

AFFAIRS IN LOUISIANA.

A War of Races Looming Up—Both Parties Arming.

MONROE, LA., September 1.—A fresh excitement sprung up last night in consequence of reports that negroes were arming in the northern portion of the parish and coming to burn the town. About seventy-five negroes, mounted and on foot, were found at Captain Hillop's place. A parley ensued, and the negroes refused to disarm, and said they would come back with five hundred men. Captain Theo. Balls, with fifteen men, blockaded the road with rails. The news spread, and whites, armed, from this and Moorehouse parish went to the scene. The excitement was intense, but nothing occurred and not a gun was fired. The whites, including the best men of the county, acted with the greatest forbearance. One freedman of the armed negroes said they were told to arm by the sheriff of the parish, who is colored, and come to Monroe and burn the town.

In the southern portion of the parish, where houses were fired into and the trouble begun, leading citizens report all quiet. Some scattering demonstrations, they say, were made last night, but nothing serious. The situation is decidedly anxious, but leading citizens are proceeding with prudence and moderation.

A RIVER DISASTER.

A Steamboat Blown to Pieces—Eight Persons Killed or Wounded.

MONROE, LA., September 1.—The steamer Timmie Baker, lying at the Trenton wharf boat, exploded a boiler to-day. Eight persons were killed or wounded. Two colored deck hands were killed. The barkeeper, Joe Sintas, is expected to die. Capt. E S. Austin, pilot, received two serious flesh wounds, but probably not fatal. The boat was worth $8 000. She is a total loss. The cabin and hull were blown to pieces and the wreck sunk.

Accidents on the Rail.

ST. LOUIS, September 1.—Five freight cars and the caboose of a train on the Cairo & St. Louis Railroad broke through a bridge near Waterloo, Illinois, last night, and fell some thirty-five feet, completely wrecking them and their contents. Three men, Geo. Brown, conductor, the brakeman and one passenger, unknown, went down with the cars. Brown and the brakeman are probably mortally hurt. The former is seriously injured. While a freight train on the Missouri Pacific road was coming east about daylight this morning, it encountered a washout at Fairview, and thirteen cars were precipitated down an embankment some twenty feet high. A number of cattle were killed. A brakeman had an arm broken.

WILKESBARRE, September 1.—By the breaking of an axle of the engine of a train on the Lehigh Valley Railroad to-day, four cars were thrown from the track and down an embankment, bruising and cutting eleven passengers, one seriously.

THE POLITICAL CAMPAIGN.

Ex-Governor Seymour Interviewed—Why He Declines the Nomination.

NEW YORK, September 1.—The *Herald* publishes an interview with Ex-Governor Seymour this morning, in which the Governor says: Yesterday morning I received a letter from Dr. Churchill, one of my physicians, forbidding me making any mental or physical effort, and declaring that the acceptance of this or any other public position would be detrimental, if it did not prevent my ultimate recovery. In view of these facts it will be impossible for me to accept the nomination, and I so informed the gentlemen from Saratoga who waited upon me this morning, requesting my acceptance.

The *Evening Post* has the following special:

UTICA, September 1.—Nothing can alter Horatio Seymour's determination not to permit the use of his name as a Democratic candidate for Governor. He says this morning that he will listen to no more gentlemen who wish to urge the nomination upon him, no matter who they are. He has been made sick by interviews and the excitement of the last two days.

[Signed.] UTICA HERALD.

UTICA, September 1.—Senator Kernan spent the day with Gov. Seymour, and it is believed all further effort to induce Seymour to reconsider his refusal to accept the nomination will be abandoned.

NEW YORK, September 1.—General L. B. Faulkner this evening sent to Gov. Seymour the following telegram as showing the good faith of Gov. Tilden's friends in the matter of Gov. Seymour's nomination:

"NEW YORK, September 1, 1876.

"*Hon. Horatio Seymour, Utica, N. Y.:*

"The State Convention, including myself, acted towards you in the utmost good faith. The form of the telegram received by me from Mr. Spriggs was agreed upon in a committee of ten to signify, as its language indicates, your acceptance. I remained in Saratoga to more speedily convey your decision to the Convention.

[Signed] "L. B. FAULKNER."

The following is the form of the dispatch referred to above received by Gen. Faulkner from Mr. Spriggs, dated Utica: "Go on and complete the ticket."

LATER.—The conferences between Gov. Seymour and his friends in regard to his nomination have not yet closed. His friends are hopeful that he will conclude to submit to the choice of the Convention and the will of the people. Gov. Tilden and Lieutenant Governor Dorsheimer were not here. Senator Kernan admits his efforts to persuade Seymour failed utterly.

Rebellion in the Democratic Camp.

AUBURN, N. Y., September 1.—The *Morning News* has taken the Democratic State ticket from the head of its columns, saying: Villainous fraud has been practiced. It calls for the assembling of a convention and the nomination of a ticket in a fair, open-handed manner.

Congressional Nominations.

CINCINNATI, September 1.—The Independents of the Fourth Indiana district, nominated William L. Bright for Congress.

ST. LOUIS, September 1.—R. P. Bland has been nominated for re-election to Congress by the Democrats of the Fifth district of this State.

The International Boat Races—The Londoners Dissatisfied.

PHILADELPHIA, September 1.—The International boat races for amateurs closed to-day. The first double scull trial heat was between the Oneidas (Walker and Rogers), Vesper (Mingus and McMillan), Atlanta (Rogers and Ackerman), and Northwestern (Corning and Montgomery). The Atlanta won in 10:29¾; Vesper 10:32 and Northwestern 10:52. The second double scull trial heat was between the Crescent (Young and Tasker), Union Springs (Courtney and Yates), and Vesper (Henderson and Carson.) The London Rowing Club had withdrawn. The Union Springs won. Time 10:17. The final heat for pair oars followed. The Northwesterns (Killoan & Smith) occupied the western or favorite position, and the Atalanta (Eustis and Downs) the eastern. The Atalanta got way first, and steered an excellent course. In passing the half mile post the Atalanta were pulling thirty-two strokes and their opponents thirty-four. The Atalanta increased to thirty-six, and when in sight of Peter's Island led by nearly two lengths. The Northwesterns now bent to their oars, and passing their opponents crossed the line in 10:02, and Atalantas 10:16.

Yale, Columbia and Cambridge now began their race, but the interest in it ceased when at the mile post the captain of the Cambridge crew fainted. Yale won. Time 9:10¾, and Columbia 9:21.

The final heat for double sculls was rowed between the Atalantas (Rogers and Ackerman) and Union Springs (Courtney and Yates). Union Springs won. Time 9:52½, and Atalantas 9:54. On Monday the professional four oar, single and whale boat races take place.

Capt. Gulston, of the London Rowing Club writes to the regatta committee, declining further competition, considering that his crew had not received proper treatment, and the committee reply that they have nothing to regret in their treatment of the London crew, and have the fullest confidence in the impartiality of the umpire.

A Mystery Solved.

DAYTON, O., September 1.—H. M. Brown, an old and well known citizen of Dayton, suddenly disappeared about five weeks ago. It was entirely decayed and horribly mutilated by dogs, the skull having been carried away. Brown was a near relative of old John Brown of Ossawattomie.

NEWS FROM ABROAD.

The Servian Army Reinforced by Russians.

Prince Milan Again Assuming a Belligerent Attitude.

TURKEY.

CONSTANTINOPLE, September 1.—The deposition of Murad occasions no excitement or disturbance. The deposed monarch has been assigned the Tcheregan palace as a residence. Abdul Hamid, the new Sultan, was yesterday received by the Ministers and functionaries at the Topcapon palace, where he was proclaimed Abdul Hamid II.

LONDON, September 1.—A correspondent writing from Belgrade says the Servian army is being rapidly reinforced and reorganized by Russians, who are crossing Roumania and Hungary in large numbers, and that since this influx the Servians have fought better and seem more likely to hold their ground against the Turks. The extent of the advantages gained is only to be judged by reflex influence upon the political situation at Belgrade. A week ago to-day Prince Milan invited the mediation of the powers in the most formal manner for Servia and Montenegro jointly. This step was taken in opposition to Gen. Tchernayeff's wishes and in the face of his protests and arguments. It has been daily becoming more and more apparent that the Prince's action is regretted, at least by those in control of the Servian Government, and notwithstanding the powers have notified Prince Milan of their acceptance of the task of bringing about peaceful negotiations, there is evidence that Servia will obstruct or evade them, if possible, unless some new military disaster produces another revulsion of feeling. Tchernayeff's memorandum against peace was yesterday officially published by the Servian Press Bureau. It throws no additional light on the situation, and its most striking features are the official presentation of an argument that Servia has nothing to lose by war, since the European powers will never allow the Porte to deprive her of her present political administrative rights, and an expression of belief that Russia will soon be forced to enter the contest if it is prolonged.

BELGRADE, September 1.—It is said the pacific tendencies of Prince Milan are being overcome by representations of the war party. It is reported that Prince Gortschakoff has formally demanded that any mediation undertaken shall extend to Bosnia and Herzegovina.

LONDON, September 1.—A special from Pesth to the *News* says: The passage of Russian officers through Hungary is becoming a source of irritation, and several parties have been arrested and imprisoned. To-day we have an account of a party of sixty-eight, provided with passports and traveling under the protection of the Geneva Cross, being detained by order of the Hungarian Home Ministry; but Baron Hofmann, acting for Count Andrassy during his absence, has decided that they be allowed to proceed, and that similar travelers from Russia be permitted to pass unmolested. Meantime the peace negotiations, which have been committed to the ambassadors at Constantinople, seem not to be making satisfactory progress.

Another telegram states that at a council of the Turkish cabinet on Wednesday it was determined to postpone any decision regarding the suspension of hostilities until the wishes of the powers concerning the terms of peace were more fully ascertained. This indicates that the powers themselves have not arrived at any agreement regarding the basis of the negotiations, and tends to confirm the statement that Russia desires to include Herzegovinian and Bosnian affairs in the settlement upon the basis of the Berlin memorandum. If this demand meets considerable support from other powers the negotiations will be rendered extremely difficult, in consequence of England's former rejection of the Berlin proposals. The feeling that the present situation is dangerously uncertain begins to be reflected by the prices of international stock upon London and Continental exchanges.

CONSTANTINOPLE, September 1.—The city was illuminated last night, in honor of the new Sultan. The ships in the harbor are decorated with flags. The ceremony of girding Abdul Hamid with the sword of Osman is announced for the 9th.

BELGRADE, September 1.—Ristics to-day stated that Servia had not received any intimation from Turkey regarding the desire expressed by her to enter into negotiations for peace. It was in response to England Prince Milan declared he was willing to enter upon such negotiations. Servia will not be able to accept rigorous conditions. The change of sovereigns might retard the negotiations and alter the conditions of peace and the situation of the belligerents.

CONSTANTINOPLE, September 1.—All the Ministers will remain in office. A conference of representatives of the guaranteeing powers was held yesterday, and the question of mediation discussed. All had received identical instructions from their Governments. By Saturday or Monday they will take official steps to bring about an armistice.

RUSSIA.

ST. PETERSBURG, September 1.—It is stated in official quarters that Russia has united with other powers in the efforts for pacification, and that the Russian representative at Constantinople has declared that should an armistice be concluded, Montenegro would adhere thereto. No conditions of peace have yet been formulated. Russia, without assuming a prominent part in the steps taken to stop the bloodshed, fully participated in the diplomatic action at Belgrade which induced Prince Milan to request the mediation of the powers. Russia has constantly in view the necessity of obtaining guarantees for securing peaceful intercourse between the Christian and Mahommedan populations of Turkey. The Russian policy remains the same as at the Berlin conference, and there is no reason to suppose other views prevail at Vienna or Berlin.

ST. PETERSBURG, September 1.—Subscription to the new Servian loan was opened on August 31. The loan is eagerly taken by the public.

GREAT BRITAIN.

GERMANY.

BERLIN, September 1.—The reply of President Grant to the Emperor's letter of congratulation on the occasion of the Centenary of American Independence was presented to-day. The President speaks of the close friendship between the two countries, and hopes the relations will continue.

There will be a gospel meeting at night. In the afternoon Dr. Pearson will preach the dedication of the new Baptist church at Fair Oaks, on the P., F. W. N C. R. R.

THE funeral services of Mrs Bishop Janes whose death was announced last week, were impressive. Bishop Simpson and Drs. Ridgway, Foss and Chapman, pastors at different times of St. Paul's church, New York, where she held membership thirty-seven years, delivered tender addresses. Her last utterances were "out of darkness into light," "light"—"all light."

THE following gentlemen have been chosen Directors of the Mt. Sewickley Camp Ground Association for the ensuing year: Captain J. F. Dravo, J. H. McCreery, Beaver; Hon. D. N. White, Judge J. W. F. His ordination and installation will take place at the next meeting of the Monongahela Presbytery, which will be held in the Seventh U. P. church on the 26th inst. His field is a large one, full of opportunities for usefulness, and he enters upon it with bright prospects. That his pastorate may be long successful and happy is the prayer of hosts of friends.

HOW SHALL we get back to our former steady-going habits in church, prayer meeting, Sabbath School and business, after so much forced and voluntary idleness this summer? To "get down to work" in these departments will require an effort. Good habits relaxed or intermitted, as ours have been for some time past, will not come back of themselves. They must be sought to be recovered; and oft remitted as at the present, they disappear altogether and new ones, generally worse, take their place.

THE Methodist Episcopal church in the United States has a missionary society, organized in 1819. Their income the first year was less than $1,000. They now have missionaries in China, Japan, India, Africa, Mexico, among the American Indians, in Norway, Sweden, Germany, and at Rome; and perhaps, in other places. They have in foreign lands: male missionaries, 80; female missionaries, 60; native helpers, 160; members, 5,182; scholars, 4,078 Besides these they have large fields of Home Missions. Their income approaches $800,000 annually.

A NEW clock, with four dials, is being placed in the spire of Trinity church, on Sixth avenue, nearly opposite the GAZETTE office. The works of the clock which was in the steeple of old Trinity will be used for the new clock, and are at present being put in good repair. The bell will be different in tone from the City Hall bell, in order to prevent confusion, and will strike the hours regularly day and night. The machinery will be connected by telegraph with the clock on Observatory Hill. The dial figures will be of gilded glass, and ten and one-half inches in length.

SEVERAL ministerial members of the Board of Freedmens' Missions, U. P. church, left this city on Monday last for Knoxville, Tenn., to attend the opening of the new Normal school building just completed by that Board. The U. P. church, true to her early anti-slavery character, entered upon the work of educating the freedmen during the war, and has persistently followed it up to the present. The school now being opened in Knoxville, is to be of a higher grade, for preparing teachers among the colored people. Rev. J. P. Wright assisted by an able corps of experienced teachers, is to have charge of the educational matters, and our former, much respected fellow townsmen of the Fifth U. P. church, Rev. S. B. Reed, is to look after the moral and spiritual interests of the Mission.

····The Allegheny Police Committee should have met last night but it failed to secure a quorum. The five members present signed the August pay-roll, which foots up $3,923.43.

····A carpenter named Dougherty, who was working on a new building near Oakland, fell from a high scaffolding yesterday and was seriously injured. He was badly bruised about the body and one of his legs, besides being hurt internally.

····Thomas, a fifteen-year-old son of Meat Inspector Lindsay, while shooting rats in the cellar yesterday with a shot-gun, accidentally discharged a load into his face, producing very serious injuries.

····A few days since reference was made in the GAZETTE to the death of a man named Campbell on a Mississippi river steamer. On Wednesday Mrs. J. R. Campbell, of Braddocksfield, called for the letter which had been sent to Postmaster Negley for her.

···The collections of Internal Revenue for the Twenty-second district as reported by Collector Davis, for the month of August were as follows: Spirits, $26,872.90; tobacco, etc., $28,040.59; fermented liquors, $8,532.20; bank deposits, $274.99; compromise, $50.00. Total, $63,770.68.

····Messrs. Tomlinson, Lynch and the other gentlemen who have succeeded to the management of the Pittsburgh Bolt Works, on the Connellsville Railroad at Frankstown, expect to start the works on Monday morning, next, if possible, and not later than the middle of the week in any event.

····It is rumored that His Honor, Mayor McCarthy, has now in contemplation the decapitation of two other of his deputies, as well as a number of members of the police force. No amount of interviewing, however, could elicit anything definite from him. He is very reticent and non-committal on the subject.

····Chief of Police Ross, of Allegheny, yesterday instituted against Erhard Speck, a saloon keeper on Federal street, below the West Penn depot, two suits charging him with selling liquor on Sunday and keeping his saloon open after twelve o'clock at night. Speck will have a hearing at three o'clock this afternoon.

····The Coroner held an inquest yesterday on the body of Agnes Schottel, the little girl who was run over by a wagon driven by Mr. William Moore, at Beck's run Wednesday. The child, who was only five years of age, it appears tried to cross the street in front of the team. The jury returned a verdict of accidental death.

····The Coroner held an inquest yesterday morning on the body of Wm. James, the boy killed by being run over by a wagon at Liberty and Thirty-third streets, an account of which we published yesterday. The jury found a verdict of accidental death and exonerated the driver of the wagon by which he was killed from all blame.

····Several provoking errors occurred in the report of the proceedings of the Presbyterian Picnic at Washington, the most glaring of which was the brief abstract of Senator Scott's remarks, which makes him say: "The Scotch-Irish Presbyterian always voted for himself, &c." It was written, and should read: "The Scotch-Irish Presbyterian always voted for himself and thought for himself."

····The Allegheny police station last night contained Peter George, who is suffering from an acute attack of *mania-a-potu*. He was found by the police early yesterday morning yelling and shouting through the streets in the vicinity of Pleasant Valley. He is from Lexington, Ky. Dr. Cole, under whose care he is, says that his attack is a very severe one, but that he will be all right in a day or two.

····The water in the Allegheny river is lower than since 1856, and endangers the continuance of the supply to Allegheny City. The strainers at the mouth of the inlet pipes to the pump pit are only eighteen inches below the surface. A whirl in the water admits air, which interferes with the working of the engine. Should the stage of water continue to decrease an aqueous famine in both Pittsburgh and Allegheny would not be an improbability.

····Of the five or six hundred school teachers in Allegheny county, only seven attended the session last month at West Chester of the State Teachers' Association. They were Profs. Geo. J. Luckey, John Morrow, M. B. Sloan, H. W. Gross, W. S. Nesbit, and Misses Lizzie Lyon and Hannah J. Lyon. Cannot this be considered a fair indication of the extent of the interest manifested by teachers in educational affairs? And if so, is it something to which they can point with pride? We pause for a reply.

····It will be remembered that last May a man named F. S. Mustetter was arrested at the St. Clair Hotel on suspicion, he wearing a false moustache and imperial, and goggles on his eyes. He claimed to be a resident of Clarion, and when the authorities were asked in regard to him they replied that he was wanted on a charge of felonious assault and battery. He had been affianced to a Miss Fink, of Petersburg, but deceived her, and then married another woman. On March 27th Miss Fink met him clandestinely, when he choked her and left her for dead. His trial came off last Monday, when he attempted to prove an alibi. The jury was out until yesterday, when a verdict of guilty was brought in.

PERSONAL.

***Joshua Nuttall, formerly Assistant Engineer of the Allegheny water works will, it is said, be a candidate next year, in opposition to Mr. Richmond, for the Superintendency.

***Our friend, Mr. E. A. Rossiter, who presides with so much dignity and grace over the popular square dealing Boston Clothing Store, returned yesterday from jaunting and loitering in the Granite, Green Mountain and Bay States, including a protracted picnic on the shores of Lake Champlain. He looks as bright and cheery as a May morning, and now waits at 95 Smithfield street to welcome and accommodate his friends in especial reference to the adornment of the outward man.

THE LATE PROF. BANCROFT.

Resolutions of Respect to the Memory of Deceased Passed by the High School Alumni Association.

At a meeting held last evening by the High School Alumni and pupils, to take appropriate action on the death of Prof. Bancroft, Mr. Raphael Sargeant, occupied the chair, and C. C. Cochran acted as Secretary. On motion a Committee on Resolutions, consisting of Messrs. Lake, Logan and Cochran was appointed, and the following were unanimously adopted:

WHEREAS, An all wise Providence has called the late Professor Horace W. Bancroft from his earthly labors to his heavenly home, therefore,

Resolved, That while we bow with reverence and humility to the decrees of "Him who doeth all things well," we feel that in the death of Prof. Bancroft, we have lost a loved and loving friend, a faithful, patient teacher, and a useful, honorable and upright citizen whose place cannot easily be filled.

Resolved, That by his peaceful, quiet life, affectionate disposition, and earnest, conscientious labors he gained the love and esteem of all who knew him. It may truly be said of him that the community at large is better through the influence of his exemplary life. He has been called from his labors, but his works do follow him.

Resolved, That these resolutions be published in the daily papers, and a copy be transmitted to the family of the deceased, who have our heartfelt sympathy in their great bereavement.

AMUSEMENTS.

Academy of Music.

There could be no better evidence of the success of Carncross & Dixey's minstrel troupe than the overflowing houses they have been drawing ever since their initial entertainment on Monday night. Early yesterday afternoon the seekers at Hale's for matinee tickets were numerous, and the two concluding performances of the company to-day will doubtless be as well patronized as any of the others. Carncross, Wheeler and Dougherty are the leading members, and furnish enough fun and sentiment to please any one. Cheevers and Kennedy are unexcelled in their German, Irish and negro comicalities.

Pittsburgh Opera House.

The box office is now open for the sale of seats for the sensational play entitled "The Molly Maguires," to be produced on Monday night by the Aiken combination. The flaming posters on the dead walls of the city, the *avant couriers* of the company, have for several days announced its coming.

TAKING THE FRONT RANK.

Connelly's Fire Extinguisher—Controlling a Fire in One Minute—A Wonderful Invention.

Of all the fire extinguishers ever invented the one bearing the name of Dr. Connelly is undoubtedly the best for the purposes intended. The apparatus has lately been improved and works like a charm. During the Exposition last year, it will be remembered that the machine was thoroughly tested and worked admirably, the fires, after being started with light combustible material, saturated with oil, were every time extinguished sooner than it takes to write it. Since the new system has been perfected a company has been organized in New York and a large number are continually being manufactured to supply the demand.

Exhibitions of the merits of the machine are being given in different cities and everywhere public interest is excited. In May last a very satisfactory test was made near the Centennial buildings on Forty-second street, Philadelphia, and on the corner of Seventh and Fifty-ninth streets, New York, those appliances are to be seen daily on exhibition. They are invaluable to owners of property, insurance companies, and in fact everybody, as they offer protection from the fiery element not to be had from any other source. Too much cannot be said in their favor.

Dr. Connelly's extinguisher was lately introduced into the Beaver Falls Cutlery Co.'s works on the Ft. Wayne railroad. Last Tuesday a trial was made. We learn from the *Beaver Valley News* that the public test was very successful, and from the lengthy article upon the subject we take the following particulars:

The "pile" to be fired consisted of ten wagon loads of refuse lumber and twenty-four tar barrels, on which was thrown a quantity of tar. At 2:30 the torch was applied at a dozen different places, and within a very few minutes the whole mass was one solid flame, the blaze reaching twenty-five feet high, and making a heat so intense as to cause the crowd to beat a hasty retreat, some going to the street and others into the wareroom. While the fire was in its glory, and roaring as if conscious of its strength, the word was given to open the valve, and almost immediately the fire struggled as if a cloud had fallen, and within *one minute* the fire was under control, and *in two and a half minutes was totally extinguished.*

At the exhibition mentioned, the gas and water traversed a distance of 300 feet before reaching the plug from which it was taken, the plug being on the second floor and upper end of the main building. From this plug it was conducted by hose through the window, over the bridge and through the water-house to the ground below, a distance of 250 feet making *seven hundred and fifty feet* in all and throwing a stream from a ¾ inch nozzle with as much force as a steam fire engine.

In this connection we might mention that the Beaver Falls Cutlery Company have been paying $5,000 per year insurance on their factories, but in view of the protection afforded by the adoption of this apparatus, have allowed their *policies to expire* and *will not renew*. The apparatus complete costing $2,500, the interest on the investment would be, say $250, thus effecting *a saving of $4,750 per year*, no small item.

The stationary apparatus ranges in price from $1,000 to $3,000, according to capacity. Hand and Portable Extinguishers are also made—the portable having ten times the extinguishing power of an ordinary steam engine.

All orders will be filled by the "Atlantic Fire Annihilator Company," organized for the State of New York on the "Connelly-Hastings System."

TRINITY CHURCH CLOCK.

The Old Town Clock to Sound Again.

The community in this neighborhood will be gratified at the restoration to the new Trinity church of its old favorite, the "Town Clock." This clock was first placed in the tower of old Trinity, erected in 1825. It has remained out of use and out of repair for several years, but a liberal member of the church, T. C. Jenkins, Esq., one of our prominent merchants, has determined that the hours of the day and night shall again be sounded, this time from the lofty tower of the new church, even at his own private cost, and so the skill of the Senior Dunseath, who is an adept at such things, has put the dear old clock in perfect repair, and the well known and ingenious Sixth avenue painter, J. T. Brown, is engaged in embellishing the periphery of the clockdial with golden Roman numerals, so that after a few days the progress of the old man Time with his scythe will be daily announced to a listening auditory scattered over a large portion of the city. We understand that the bell in the chime selected for the clock to strike is "lower E," by which the note or tone produced will be so unlike that of the City Hall clock as to be readily distinguished from it, thus avoiding the evils that might otherwise result from the proximity of the two clocks.

CITY COMMITTEES.

Monthly Work of the Market and City Property Committees.

The Market Committee held a regular monthly meeting last evening, Mr. Schwarm presiding.

A petition of J. H. Lippert for a lease of a part of the fish market of the Fifth avenue house, was presented and referred to a sub-committee.

The monthly pay roll and bills were approved.

The City Hall pay roll and bills amounting to $498.22 were approved.

SATURDAY SEPTEMBER 2, 1876

PETROLEUM at Antwerp 48f.

BONDS at Frankfort, new 5s, 103

GOLD closed in New York yesterday at 110.

ON Monday week, September 11, Maine holds its election. A grand and sweeping victory is anticipated for the Republican ticket.

THERE is an apparent struggle among the atmospheric elements whether we shall, or shall not, have a storm. The close murky weather of the past few days inclines to the hope that we may have cooling rains, in the hope that they may be followed by more regular weather.

THE latest from New York is that Governor SEYMOUR declines to accept the nomination of his party, for the Governorship. Should he persist in this, the party will be in great trouble, as none of their men are regarded as so popular as SEYMOUR. Should his refusal to accept be confirmed, it will be a serious blow to Democratic hopes in the Empire States.

THE latest of those brutal affairs, a prize fight, ended a day or two since in the death of one of the parties, and the probable death of the other. The murdered man was left on a wharf by his friends, who escaped for fear of arrest. Should such affairs thus close, whenever they are undertaken, there would soon be an end of the disgusting fights. They are brutal to the last degree, and are patronized by people of the lowest tastes.

THE Great powers in Europe are disputing on the steps to be taken for reaching peace, some of them desiring that peace should be promptly declared, while Russia prefers that an armistice should be established, as preliminary to peace negotiations. The trouble with this is, that fears are entertained that Russia means to thoroughly strengthen the Servians, so that in the event of the renewal of hostilities the Turks will have something of a struggle.

THE patriotic Irish people, who long and hope for the deliverance of Ireland, are being drawn upon by O'DONOVAN ROSSA for money, to begin a new movement in the interest of the deliverance of Ireland from English rule. With all respect to the parties in interest, we suggest that such remittances go for nothing. There is a proper way to aid Ireland, but these sporadic efforts to do it, by financial contributions, go for nothing.

THE attempt to free TILDEN from the responsibility of conflicting oaths, proceeds bravely. We are asked, if all this is true, that he swore, falsely, why did he not know of it sooner. We answer, that the second oath, which proved the first oath perjury, was not made till the early part of August last,—less than a month ago. It could not be discovered till it took place. In place of queries that only show weakness, we suggest that TILDEN and his friends squarely explain the discrepancies, if they can.

CHICAGO has a freight discrimination excitement of her own. The new house of A. T. STEWART & Co., just being established at Chicago, is reported to have obtained of the New York Central road, special rates, at about one-third what is charged other parties. A feeling of intense indignation has already arisen, and will evidently result in some form of rigorous action, should the rumor be confirmed. Suppose a similar experience had been had here, who imagines there would be more than a mild protest?

THERE is something more than a suspicion that the Democratic State Convention in New York was purposely hoodwinked in order to put the selection of a Gubernatorial candidate entirely under the control of TILDEN. SEYMOUR, it seems, stated to the committee that he would not accept; but despite this, they reported that he would accept, and the convention adjourned. Thus there is a very decided trouble in their camp. Should the idea that deception has been practiced be confirmed, it will be very apt to intensify the bitterness now existing in the party, and may even do worse,—split the party into fractions. It is a very pretty muddle as it is, the outcome of which no one will venture to predict at the present. We hope there may be no delusion as to SEYMOUR's declension.

THE Cleveland *Leader* claims to have specific knowledge of an arrangement whereby $250,000 are to be put into Ohio, by TILDEN and his friends, to carry that State. Their theory is that if they can hold the vote cast for Governor ALLEN, and change 3,000 votes in Cincinnati, Cleveland and Toledo, they could control the election. At a meeting of the State Committee, where the proposition was discussed, one urged its acceptance on the ground that money had always been used in elections, and always would be. Warming with the subject, the second speaker declared that *this was the only way to save the country; that the end justified the means;* that the Democracy of Ohio was now the advance guard of the party, and that it was morally bound to use every means within its reach to make success secure. The Republicans of Ohio will be alert against such tactics.

AT LAST we have it. It has long been suspected, and even declared, that the Democracy would not respect the constitutional amendments, once they are restored to power. Governor VANCE, of North Carolina, declares, when cornered, that both the amendments, and the reconstruction acts which preceded them, are frauds; even the abolition of slavery he stigmatizes as "a fraud upon the Constitution." The postion thus taken by NANCE is not new. There is not at this moment a man of mark in the Southern wing of the Democratic party who has not again and again scouted reconstruction and its results as the product of fraud and usurpation. The National Democratic Convention of 1868 condemned them as unconstitutional, revolutionary, and void, and otherwise allied itself to the policy which aims at the overthrow of what the Republican party has accomplished. The pretense now made of submission to reconstruction and the amendments is, then, palpable hypocrisy. It simply means submission as long as the Republicans have power to enforce it, and no longer. As for the Constitution, apart from these amendments, it is in the opinion of the Southern Democrats altogether on their side. At a meeting in Atlanta the other night, that genuine Georgian, B. H. HILL, declared that the rebels fought for the Constitution, and "had always been true to the Union." The North, according to Mr. HILL, violated the Constitution when it employed force to preserve the Union, which, as now administered, represents only "anarchial principles" and "profligate and usurping practices." Taking VANCE and HILL as exponents of their party in their respective States, it is not difficult to trace the germs of revolution in the construction put by the Southern Democracy upon the organic changes effected since the war. In several Southern States, the known violence of these men has caused reactions in the interest of the Republican party.

SCHURZ'S SPEECH.

CARL SCHURZ, whose eminence as a statesman and orator, has made him the leader of our German fellow-citizens, delivered his great speech on the political situation in Cincinnati on Thursday night last. It is of too great length, even for an editorial synopsis; and while there are allusions in the speech with which we do not agree, there are so many other particulars in which it is sound and strong that we withhold any expression of dissent. The tone and tenor of the speech are such as command undoubted approval. Our German fellow-citizens are very remarkable in one particular,—and that is, their unswerving honesty. In individual and public life they demand the most undoubted evidence of honest dealing. Hence the covert and open dishonesties which attach to TILDEN and the Democratic party command their undisguised reprobation. In this hostility to dishonesty and purblind statesmanship SCHURZ is a leader that will be largely followed.

THE NEW LOAN.

THE statement that the new four and one-half per cent. loan has been put upon the market in London at over ten per cent. is gratifying as showing the credit of the Government, and at the same time is very beneficial to the syndicate. They can be paid up in New York at the option of the taker, between the 10th and 30th of September, adding interest from the first of the month, from which time the new stock will run, for thirty years, with the right of redemption reserved to the Government at any time after 15 years, or after the year 1891. The registered stock is assigned to New York subscription. Its proportion to the whole loan nearly corresponds with the amount of the 6 per cent. 5-20 stock of 1865 registered and owned in this country. Messrs. ROTHSCHILD take exclusive charge of the coupon stock, and the terms of subscription by arrangement are made to extend to June 1, 1877, or 90 days after the old bonds are finally called in. It seems that the ROTHSCHILDS will issue their own scrip or the scrip of the Syndicate until the negotiation is completed, and the coupon bonds will be delivered with the first quarterly coupons maturing June 1, 1877. The arrangements are evidently to be carried out without disturbing the foreign exchanges, and without even the temporary use of much gold. The tendency, in fact, will be to further reduce the premium on gold. And if in this connection the National banks should take up $30,000,000 new circulation in the next four months, followed by the exchange of $24,000,000 gold for a corresponding sum of greenbacks to be withdrawn, another rapid stride will have been made by the Administration to carry out the Resumption act of 1875. The arrangement is already made with the Syndicate to furnish the needful amount of gold to retire the greenbacks. The promise is very strong for the success of the enterprise.

HOW IT IS DONE.

It is very difficult to make the people at the North understand how fearfully outrageous have been Democratic methods at the South of securing control of the apparent vote of the people. Some facts have come to light, in the form of sworn statements and records, to show how Mississippi has been carried, so far as four counties are concerned. Chickasaw county has a black population of 10,069, and a white population of 9,830. In 1873 the vote was as follows: Republican, 1,423; Democratic, 976. In 1875 the vote was: Republican, 987; Democratic, 1,778. How was this immense gain secured? This is shown by a letter to the Governor, showing how the Democracy carried Chichasaw county. Several weeks prior to the election the Democracy organized themselves into military companies, fired into the houses of Republicans and negroes, openly threatened murder, and resolved neither to lease lands to, or employ those who voted the Republican ticket. Says the writer: "If I were to state that this county, for two weeks prior to the election and one week after, was a hell upon earth, I would only tell the truth. I was told by Democratic friends that they thought my life was in danger, on account of the political excitement, and was advised by them to be on my guard all the time. Almost any Republican in the county could tell enough to invalidate a dozen elections if they were not afraid to tell the truth." Such are the showings, as to that county.

The white and black populations of Copiah county are nearly equal. The white population is 10,218, and the blacks number 10,390. In 1873 the Democratic vote was 1,576; Republican, 1,784. In 1875 the vote stood—Democratic, 2,435; Republican, 871. Ample testimony indicates clearly that precisely the same influences were at work in this county as the one above mentioned. Coahoma county has the same record, while Colfax county is even worse. The Clerk of the Chancery Court of that county, in a letter to Gov. AMES, shows that mobs of Democrats from neighboring towns and counties poured into Clinton and struck terror into the blacks of Colfax county by inaugurating a general slaughter of negroes a few days before the election, between thirty and fifty negroes having been assassinated. The remainder of the negro Republicans were completely intimidated, and white Republicans were driven out of the county.

In Texas, the Democracy having legislative control, have managed affairs under the forms of law; having arranged that for certain offenses negroes can be sold into serfdom, thus losing their right to vote. Of course, there is no trouble in so arranging matters as to have arrests made under this law. Texas is, therefore, secure. As against the system of terrorism and murder that so largely prevails is the necessity of the whites standing firmly up to their duty, in providing the blacks the right to cast their votes freely at the polls. It is the duty of the Government to guarantee them their civil rights. These fully exercised, and would not be the slightest difficulty in carrying even Mississippi for the Republican party. The question of securing pure elections at the South is a very important one, and fully justifies the use of extreme measures. It argues the most terrible weakness for the party in power to stand by, and allow its friends to be beaten down by brute force. Hence the importance of protecting the Republican voters South against the bloody spirit of the Democracy.

Sudden Loss of Memory.

They were fond of each other, very, and had been engaged. But they quarrelled, and were too proud to make it up. He called a few days ago at her father's house—to see the old gentleman, on business, of course. She answered his ring at the door bell. Said he. "Ah! Miss ——, I believe, is your father within?"

"No, sir," she replied, "Pa is not in at present. Did you wish to see him personally?"

"Yes, Miss," was his bluff response, feeling that she was yielding, "on very particular personal business." And he proudly turned to go away. "I beg your pardon," she called after him as be struck the lower step, "but *who shall I say called?*" He never smiled again.

NASBY.

CONFEDRIT X ROADS,
WICH IS IN THE STATE UV KENTUCKY, }
August 26th, 1876.

A Democratic Nominee for Congress Meets the Citizens of the Corners and Gets their Ideas of Reform.

We hed a meetin last nite to instruct the Democratic nominee for Congress in this Deestrik, ez to wat we uv the Corners shood expeck uv him in the event uv the eleckshun uv Tilden and Hendrix. His eleckshun is certain enuff, ez in this Deestrik we don't allow the niggers or carpet baggers to vote. All whites wich vote the Republiken tikket iz carpet-baggers. We adopted this rool that we mite hev peece, wich iz wat we want in the South. By simply shootin everybody wat don't agree with hoo, yoo kin git a state uv harmony, a oneniss uv sentiment, that iz trooly delitful.

The member elect reseeved us corjelly, and welcomed us hartily in the name uv Reform. He sed that he was pledged to the sacred coz uv Reform, and that he hed consultid Tilden and Hendrix, our noble standard bearers, and that he wuz satisfied that ef them patriots wuz electid the South wood git that justis that wuz doo her. He felt convinsed uv this or he wood not hev taken the nominashen at all. He wuz ready to reseeve statements from the citizens.

Deekin Pogram wuz the fust to speek. The old saint remarkt that various peeple had various idees of wat reform rely ment. The Bible sed, "Many men uv many minds," and he hed his mind ez to reform. In Noo York the reformers wantid the custom houses and the post offisis, wich wuz well enuff. Here we want the Yoonited States Government to pay us the losses we incurred at thar hands doorin an unholy and a fratricidle war. That wuz his noshen uv reform, and without that it wuz all soundin brass and tinklin cymbles. Payment of losses to the sufferin South wuz his noshen uv reform. He wuz hart and sole in this conflict, and that he shood fite for Tilden and Hendrix with all the arder that seventy years of trouble had left into him. His bill agin the Government wuz not a large one, but he felt it shood be paid all the same. When the Fedrels okkepied this seckshun, a party of pickits okkepied his farm one nite, and burnt up a seckshun of fence, for a fire, and confiscated a parcel uv sweet potatoes. He didn't expect pay for the niggers, Linkin had unconstooshnelly robbed him uv, but he shood say that for that fence and them potatoes he ought to receive say $600.

The member sejested that he hed better make out the bill for $2,000. In the reform Congris wich he hoped wood be electid, with a reform President at its hed, ther wood hev to be a good deel of divvyin. He (the member) wood hev to yoose money liberally in the departments to git the bills thro, and ther wood be sich a lobby ez Washington never saw, to be bought up. By makin the bill $2,000, the good Deekin wood probably git his $600. He thought the remainin $1,400 wood be enuff for a reform Congris.

And akkordinly the Deekin made his bill over agin for $2,000.

Capt. McPeiter presentid his bill for $8,000. While he wuz servin his country, in the Confedrit army, the Federals okkepied his distillery, and materially injered the mashenery, besides feedin to thir hossess a lot uv corn wich he hed left. Understandin ez he did the necessities uv a reform Congris, he wood be satisfied ef he receeved $1,000—the balance mite go to be divided ez ther representative shood deem necessary.

Issaker Gavitt wantid $800 for a lot uv wood burnt by the Fedrel pikkits, and shood therefore put in his claim for $5,000. He bleeved that a reform Congris wuz not only entitled to its whack, but he bleeved in makin it liberal.

The member remarked that he wuz glad to see the sperit uv liberality that prevadid the people of the Corners. It mite look ez tho $1,000 to the claimant, and $4,000 for gittin it, wuz ruther large, but they must remember that the Reform party had a bitter fight on em, and that them wich wuz spending the money, wood hev to be reimbursed out uv our fund. Our noble reform standard-bearer, Tilden, wuz, pourin out money like water, but he coodent be expected to pay out uv his own pokkit for carryin so many States. There waz Injeany and Ohio, Noo York and Pennsylvany, Maine and Noo Hampsheer, all uv these wood require barrels apeece, and it hed bin decided that the expense must be made good out uv the Southern Claims. This must be taken into account.

Bascom put in a claim uv sevral thousand uv dollars for injoory done to his bar-room by the Fedrels comin within two miles uv the corners, wich indoost every citizen to get out uv the naberhood and stay out for four days; and Squire M'Grath put in his claim for a dozen hosses seezed by John Morgan, wich wuz cleery cozed by the Fedrel invashen.

Seein suthin in the claim biznis I put in mine.

"For wat is yeor claim, may I ask?" wuz the reply uv the member.

"Sir," wuz my anser, "I hevn't made up my mind yet wat I shel put in a claim for, but put it down for $10,000. I may put it in for lasserated feelin at the triumph of the Federals, or somebody may remind me uv some property uv mine that wuz burned, tho I hev no recolleckshun uv ever hevin any. I shel fill out the partikelers hereafter; it is not necessary now. The reform party is a goin into power—it hezn't bin in power for a great many years—it will come in, ef it comes in at all, by Southern votes, and they ain't a goin to scrootinize the claim uv a man very closely ef they know he is a Southern and a troo reformer, pertikelerly ez for every dollar they vote they bag seventy-five cents theirselves. The Democratic Congress last winter made some savins out uv the mails and so on, that they mite hev more money to divide up in the impoverished South, and I am a goin to hev my sheer, shoor. I hev promised every one uv these peeple that their claims shel be paid ef Tilden is electid and we git the Congris, and that is the condishun on wich we support him, and I ain't afrade uv his goin back onto it. So long ez we kin depend onto hevin a claim to pay so long kin we be dependid on to support Dimocrisy, and wunst in a majority everything will be ez serene ez a May mornin. The Dimocratic party alluz wuz owned by the South afore the war, and the South hez a chattle morgage onto it yit. Tilden is jest ez much our man ez he wuz doorin the fratrisidle trouble, and eny Congris wich supports him we kin bet our bottom dollar on.

The moment it got noised abroad wat we wuz a considerin, the entire reform popelashen uv the Corners came rushin in with claims. Every man who lost a bill uv potaters, or a fence rail, or a chicken door in the unholy struggle put in his bill, and for a couple uv days it wuz lively. Ez I hed to make out the bills, owing to the inability uv the reformers to write, I jest charged em a half dollar apiece. I wood hev made a good thing uv it ef the reformers, groanin under the evils uv taxashen and an irredeemable currency, hed happened to have hed half dollars, wich they didn't.

The looseniss with wich they made out ther claims astonished even me. Men who hed never had owned even a mule put in claims for a dozen hosses each, an claims wuz filed for enuff potatoes and chickens to hev fed Ireland and the Yoonited States for forty years.

The Corners and vicinity will reseeve, ef the Reform party succeeds, nearly a million uv dollars, wich will put us on our feet agin, pertikerlerly ez we don't pay a dollar uv the taxes for it.

Now that this is ashoored the Corners will do good work for Tilden and reform. Ez Kentucky is certin to go right, anyhow, over a hundred uv our stanchest reformers hev volunteered to go over into Injeany to vote in October, for the moral effect uv a sweepin triumph in that State, that is ef the money is forthcomin to pay their expenses. The Corners will go anywhere ef its expenses is paid.

Antissipatin the eleckshun uv Tilden and the payment of the Southern war claims, Bascom has extendid our line uv credit at his bar. Thus some good comes out uv the struggle—we hev suthin tangible. Heven help on the coz uv reform.

Drs. Jordan and Davieson
Principals of the Institution of Anatomy, 807 Chestnut street, Philadelphia, Lecturers on Anatomy, Physiology and Science, inform their friends and patients that they have again opened a branch office for the practice of their profession at No. 2 EIGHTH STREET, PITTSBURGH, PA., where one of the firm may be confidentially consulted, more especially in all those cases of diseases and debility, for the treatment of which they are so justly celebrated. To all such Drs. Jordan and Davieson offer certain and speedy relief, and undertake no cases but those in which they are able to guarantee a safe, certain and permanent cure. Their important Medical Work may be had from their office, No. 2 Eighth street, on receipt of 25 cents, and also as usual from their head establishment, 1625 Filbert street, Philadelphia. Hours of consultation from 10 A. M. to 2 P. M., and from 5 P. M. to 8 P. M. Sundays from 10 A. M. to 2 P. M. Every case is strictly confidential. d&s

The Exposition.

Mechanics are now employed at the Exposition in the construction of the house designed for the reception of the young couple who are to be married after the North German style in the main building on Friday evening next. The ceremony requires forty attendants, twenty males and twenty females, and the festivities will occupy all of Saturday afternoon and evening.

There will be another balloon ascension this afternoon, provided the weather is agreeable.

Closing Day.

The Castle Shannon camp meeting will close Sabbath, 3rd instant, with the following exercises: Sunrise prayer at 5½ o'clock A. M.; Sabbath School meeting, 8 to 9 o'clock; Love-feast, 9 to 10½; service of song, by the Tennesseans, from 10½ to 11; at which time Rev. Wm. Collier, D. D., will occupy the pulpit. At 2½ o'clock P. M., singing by the Tennesseans; at 3 o'clock Rev. John Cowl, D. D., will preach; 7 to 7½ the Tennesseans. The closing sermon will be delivered by Rev. G. G. Westfall.

The Platt-deutsch Wedding.

The German wedding promises to be a paying affair to all who may be so fortunate as to be present, and while speaking of things that pay, we are reminded that the time has come when everything that is done, and especially every purchase of whatever nature, should be made to pay. Some dealers there are who make it pay all on their own side, while R. Taggart, boot and shoe dealer, of 129 Federal street, Allegheny, reserving but a small living profit on his goods, makes it pay his patrons to deal with him. The richest men in the business have become so by quick sales and small profits. No goods better than Taggart's, and no prices so low as Taggart's.

Riotous Ball Players.

Two colored base ball clubs, representing Pittsburgh and Allegheny, tried to play a game yesterday afternoon at old Union Park in a friendly way for the large sum of $3. They couldn't finish it without a fuss. A difficulty occurred during the progress of the game, said to have been occasioned by the stake holder running away with the money, and the clubs got into a fight that nearly terminated in a riot. Revolvers were drawn and freely flourished, but only one shot was fired and it injured nobody. The ring-leaders had all escaped and the affair been quieted down before the arrival of the police, therefore no arrests were made.

The Deputy Mayor's reports are not included in the above, they not having reached the Mayor's office as yet.

THE VETERAN CLUB.

Meeting Last Night in Allegheny.

A second meeting of the Veteran club, of Allegheny, was held last night at the rooms of the Young Men's Republican club, on Federal street, for the purpose of furthering their organization. President Tyson briefly referred to the objects for which the first meeting had been called, and spoke of the encouraging results that had followed. The rolls have been signed thus far by over 80 good workers. The business of the meeting was taken up and the Committee on Hall reported progress, while the joint Committee on Transportation to Indianapolis stated that nothing definite had as yet been accomplished. On motion of Comrade Stevenson, the chair was authorized to appoint all committees. Stirring addresses were then made by Col. Archibald Blakely, A. B. Hay, John W. Hague, and other members of the club, which were heartily received. It was resolved on motion of Col. Blakely that committees of five be appointed on uniforms, rules and music, the members of which will be announced through the pres[redacted] ... it was decided ... She had scarcely been there a week, when her father learned of her whereabouts, and started to bring her home. She eluded him and escaped. For another week he heard nothing of her, but he finally ascertained that she was employed in one of the Fifth avenue saloons as a "lady waiter." He applied to the Mayor to have her sent to the House of Refuge. His Honor doubted whether at her age—sixteen—he had the power to do as desired, though wishing to aid the father. The latter then applied to the Secretary of the Board of Managers of the Refuge, who immediately made the proper arrangements for having her conveyed to the institution, which was done yesterday, as noticed. She is described as having been the most lady-like, intelligent, and far the handsomest of any of the girls in the saloon where she was employed—which, by the way, is the most "fashionable" one on Fifth avenue employing "lady waiters."

ALLEGHENY POOR BOARD.

Suit for Non-Maintenance of a Parent—Affairs at the Home—Charge of Incompetence Against Farmer Beckert.

A regular meeting of the Board of Poor Directors of Allegheny City was held last night in the office of Secretary McGonnigle. Quite a large number of matters of minor importance were disposed of, of which the following are the most important: The report of Steward Grubbs shows that on the 31st of August the Home contained 262 inmates. The discharges and elopements during the month numbered 21. Of the present inmates 46 are insane, of which 20 are males and 23 females. There are 61 children in the Home. In another report Mr. Grubbs states that the number of inmates at the close of the month exceeded the previous month by 17, most of whom are women and children. He further says that Mr. Beckert, who has charge of operations on the farm, is not competent for the position he occupies and not willing to exert himself, and that if it is desirable to make the farm productive there will have to be a change in the farmer. The broom factory he pronounces in successful operation. The charge against Mr. Beckert was referred to a committee for early investigation.

The clerk was directed to institute suit against James McMillan, of the Second ward, to compel him to support his father. It is alleged that Mr. McMillan is amply able to perform that filial duty and not be inconvenienced thereby, but that instead of doing so he permits his father to be a pensioner upon the bounty of the city.

The Steward's expense account, amounting to $98.40, was referred to the Finance Committee. A warrant was ordered for $350, to be expended in out-door relief. The Secretary reported that his disbursements last month were $556.16, and his collections $95.27. Mr. Walter was appointed to purchase the cider barrels needed at the Farm.

Notice.—For some time past many of our customers have been disappointed in not getting what French bread they wanted at our retail department, No. 18 Fifth avenue. We have increased our facilities and will endeavor hereafter to have a full supply for all.

POLITICAL NOTES.

Minor Notes of the Local Campaign.

A large mass meeting of the citizens of the Fifth, Sixth, Seventh, Eighth, Eleventh, Thirteenth and Fourteenth wards will be held at the corner of Wylie avenue and Eleventh street this evening, at 8 o'clock. Addresses will be made by A. M. Brown, Esq., Archibald Blakely, Esq., Joseph S. Haymaker, Esq. and Newton Cook, Esq.

A meeting of the Veteran Organization was held last night in the rooms of the Young Men's Republican club, Allegheny, and committees were appointed to procure uniforms and select suitable persons for the positions of Marshal &c.

A large meeting of Republicans was held in the Wilkinsburg school house on Thursday evening. After an excellent speech by Col. Joseph S. Haymaker, some unfinished business, looking toward the organization of a marching club, was transacted. A committee was appointed to confer with a similar committee from the Twenty-first ward, relative to the organization of a battalion with the same style of uniforms for general turnouts.

At a meeting of the Fifth ward Hayes and Wheeler club, held Thursday night, at their wigwam, on Seventh avenue, they had a very pleasant night. John Boyd, of the Seventh ward, furnished the club with refreshments, after which they had several speeches.

The Seventh ward Hayes and Wheeler Marching Club will make their first appearance on parade on this (Saturday) evening. It is claimed that this club will be the best drilled club in the county. Their uniform consists of navy cap and a cape thirty-five inches in length, made of milk-white cloth, and patent loop leggins sixteen inches in length. The club meets at Franklin school house at 7 P. M. The Fifth, Eleventh and Fourteenth ward clubs will parade with the Seventh ward club.

A rousing meeting of the Sixth ward, Allegheny, Republicans was held at the corner of Franklin street and Beaver avenue on Thursday night. Henry Warner, Esq., County Controller, presided, and eloquent addresses were made by Colonel T. M. Bayne and Major A. M. Brown. The Robinson Brass Band was present, and enlivened things by some good music.

The Second ward, Allegheny, Hayes and Wheeler marching club held a meeting last night in the North avenue school house and elected Ed. Armstrong Captain, William Draher First Lieutenant, and Noble Jones Second Lieutenant.

At a meeting of the Fifth ward Hayes and Wheeler club, held on Thursday night at their wigwam on Seventh avenue, they had a very pleasant occasion. John Boyd, Esq., of the Seventh ward, furnished the club with refreshments, after which they had several speeches, when a prominent Democrat, Mr. P. O'Neill, being called on, responded by saying that he was surprised to see so many fine, able-bodied young enemies before him, and from appearances he felt afraid of his party's defeat this fall. After marching around the room singing "Marching Through Georgia," they adjourned to meet on Friday night to get their equipments.

As the Tailor, So the Suit.

We have heard of a young man of fashion in the city, who can tell the tailor of every suit of clothes worn by his friends. He is certainly an expert in this line, yet it requires no particular skill to be able to point what suits have been manufactured by R. Tiegel, merchant tailor of No. 53 Smithfield street, as their peculiar neatness and comfortable appearance show that they are the result of his handiwork. Tiegel's suits are excelsior and low down in the figures.

The Wonder of Inventions—An Improvement of Economy, Safety, Utility and Durability.

Although the fate of those who have given to the world great inventions has, from time immemorial, been subject to public derision, and mostly a life of poverty, yet he who would invent a non-explosive boiler should be ranked among the world's greatest benefactors, be honored in life by a just acknowledgment of his services, and rewarded by an independence of wealth for his labors, and pass the boundaries of time with the blessings of thousands on his memory. The boiler in general use, as all know, is far from being perfect and is dangerous in its use in proportion to its faults, and although it is not to be expected that the skill of man will ever attain to a construction which will insure absolute safety, yet Mr. B. S. Koll has succeeded in perfecting an improvement of the flue boiler, that renders it comparatively harmless. It has been patented as Koll's non-explosive, circulating flue, or cylinder boiler apparatus. The desideratum to be obtained by Mr. Koll was the prevention of sediment, and the consequent incrustation, or formation of scale on the heating surface of the boiler which is a fruitful source of explosion. So well has he succeeded that in the use of his improvement or patent the production of scale or incrustation is rendered impossible. Of all the appliances devised for this purpose, none have ever yet been found that would prevent this formation, while many competent engineers of long experience have pronounced this to be the only practical arrangement yet discovered that will make a perfect boiler of a cylinder or flue boiler, being in its nature of extraordinary simplicity and easy of control, thus ensuring practical perfection as nearly as human skill can attain it. What others have long sought and yet never found, remains for the Eureka of B. S. Koll.

But besides the prevention of explosions, the burning of sheets and the formation of scale upon the shell or flues of the boiler, it has many other advantages, not to be overlooked by those who require the agency of steam in producing their wares or manufactures. It produces an equalized circulation of the contents of the boiler by causing the waters to traverse the entire heated surface of the shell and flues.

Another advantage connected with this important invention is that each side of the boiler has a separate circulation, which prevents the side having the greater heat, and of a consequence, a greater rapidity of circulation, from drawing waters from the opposite side of the boiler. And again, its arrangement is such that a dead water space is formed under each flue, into which all foreign substances held in solution, in a soft, mushy condition are collected, and which can then be blown off by opening the mud valve. Another grand feature is a steam wash pipe, starting from the steam space and entering each dead water space at the opposite end from the mud valve, so that when the mud valve is opened the silicates or deposits will start towards the stand pipe, when the steam passes down the wash pipe, forcing everything before it, thus leaving the dead water spaces clean. And yet more, for its effect is to keep a solid body of water constantly passing over the shell and flues in the boiler while the steam is being generated. But, in addition to the advantages of safety and durability secured by this wonder of inventions, is its economy, saving a very large percentage of fuel by keeping the entire heated surface clean and taking up the heat as soon as it penetrates the iron, and there is therefore no waste of time and expense in boiler cleaning or repairing and replacing burnt sheets. It completely prevents that repulsion of water from the bottom or parts of the boiler that are most intensely heated and showing water at the second or third gauges, when there is not a solid body of water at the first gauge.

Such are a few of the many advantages to be secured by this great improvement, than which nothing invented for many years is entitled to more general consideration and use. The public are invited to inspect the operation of this invention at the office of the B. S. Koll Manufacturing Company, 166 Penn avenue, a few doors below Sixth street, and be convinced that its claims and benefits are genuine, and leave nothing more to be desired in the matter of boiler improvement.

The close, murky weather does not promote the kind of activity which leads to large demands on the banks. LONDON, September 1.—The United States funded loan is quoted at 103⅞@104. The Financier says: "It is understood that the applications thus far are fairly satisfactory, the bulk of them being for actual investment." The decline in consols is due to the attractive character of the new American four and a half per cent. funding loan, just offered here by the European syndicate. Several of the London banks are selling the former to take up these four and a half bonds. The amount of bullion gone into the Bank of England on balance to-day was £70,000. PITTSBURGH MARKETS.

OFFICE OF THE PITTSBURGH GAZETTE, FRIDAY, September 1, 1876.

General business continues quiet, and the leading articles of merchandise present but little worthy of special mention. Petroleum continues rather offish and unsettled, although the trade generally have confidence in the future. The recent improvement in Wool is fully maintained, and the outlook continues favorable to holders. With the exception that Wheat is firmer, there is nothing new to record in connection with the Grain markets. Flour and Groceries quiet and unchanged. There has been a decided improvement in the Butter and Egg trade within the past few days.

APPLES—The receipts continue light, but the supply is fully equal to the demand; quotable at at $1a1,50 ℔ bbl for fair to choice.

BROOM CORN—No. 1 hurl, 8½a9; No. 2 do, 7a7½; choice brush that will work up, 6½a6¾; do, covers, 6a6½; do, covers and insiding, 5¼; inferior 4½a5; crocked, 3½a4.

BERRIES—Are about out of season; we continue to quote at 50a75c per bucket.

BUTTER—In steady demand, and the recent advance is fully maintained; prime to choice solid packed in firkins, 20a24c; do, roll, 24a25 do, creamery, 28a30c.

CHEESE—Unchanged; prime Ohio Factory, July make, 8a8¾c to the trade, and 9a9¼c in a jobbing way.

EGGS—The supply of fresh stock continues light, scarcely equal to present wants, and prices are firm but unchanged; 15a16c.

FLOUR—There is nothing new to report in regard to this important article; business continues quiet and prices remain unchanged. Following are the current rates:

Red winter wheat flours	$5,00a6,50 ℔ bbl.
Amber wheat flours	7,00a7,50 "
Spring wheat flours	5,75a6,25 "
Patent process and fancy white wheat	8,00a9,00 "
Rye flour	4,50a4,75 "

GROCERIES—The Grocery business is generally reported quiet; some houses report that they are having a fair run of orders, but very few, if any, are to say busy. The inquiry for Sugar is failing, as it always is at the close of the fruit season, and prices are weaker. There is an increasing demand for Coffee, and, as stocks in the interior are light, we look for an increased trade in this article.

GRAIN—There is nothing new to report, excepting that Wheat is rather firmer in tone in sympathy with the advices from the west but as yet there has been no improvement in prices here; we continue to quote No. 1 red winter at $1,10a1,12½; and No. 1 amber at 1,15a18. Chicago was reported active and firm yesterday. The Oat market continues steady with a light supply and fair demand, but there has been no recent change in prices; new, 32a33; old, 34a35. Corn continues quiet and unchanged; stocks are light, as is also the demand. Ear Corn, on track, 50a52; Shelled, 50a53, as to quality. Rye continues in about the same condition as noted for some time past; not much here but there is not much call for it; quotable at 58a60.

HAY—New crop, loose, from country wagons, $9a14, according to quality. Baled cannot be laid down here to afford a margin for profit, hence the market is bare, but there is little or no demand.

OILS—Extra No. 1 winter lard oil, 90c; No. 1, do, 80c; No. 2, 70; white Miners oil, 60; yellow, 57; summer oils dull and lower as holders are anxious to reduce stocks and if possible close out. Linseed oil is quoted at 53 for raw and 58 for boiled. Carbon has advanced 5a6c ℔ gallon within the past week, and we now quote at 22a22½c.

ONIONS—Continue dull, but nominally unchanged; $1,50a2 ℔ bbl, as to quality.

POTATOES—The supply of Irish is light, but there is only a fair demand; quoted at 55a60c ℔ bushel. Sweets, $3,50a4 per bbl for Baltimore, and $4,50a5 for Jerseys.

PROVISIONS—The market has been decidedly offish for some days past, especially as regards Mess Pork and Lard, both of which are decidedly lower. Sugar-cured Hams being in light supply are holding their own better than anything else, although they, too, are lower.

THE IRON TRADE.

OFFICE OF THE PITTSBURGH GAZETTE, FRIDAY, September 1, 1876.

Pittsburgh.

PIG IRON—There is no improvement to report in the demand, which is still restricted wholly to supplying immediate wants, nor is there any change to note in prices. Stocks are light, especially standard red shorts, and these are held with considerable tenacity at very full rates; with anything like an average consumption, it is generally conceded that an advance could be established. It is well known that a large percentage of the production recently has been rather common in point of quality, and the consequence is that good mill irons are becoming scarce, and those who have them are refusing to sell except at full rates. There is a possibility that the disruption of the eastern coal combination may cause a reduction in the price of Anthracite pig iron, and if so, the decline there will probably weaken our market somewhat, although the consumption of eastern pig here has been light for some years. Our mills generally give western pig a preference over eastern of from one to two dollars ℔ ton, considering it that much better in quality.

200 tons White and Mottled	20 00 4 mos

MANUFACTURED IRON—Some of the mills are reported as being pretty well supplied with orders, while others in this respect are not so fortunate. There appears to be more inquiry for specialties than the regular sizes, and as there is less competition more remunerative prices are being realized for the former than the latter. There is a continued fair demand for Hoop and Sheet iron, but there does not appear to be much inquiry for bars, and more over, current rates afford little or no margin for profit.

NAILS—Orders are not coming forward very freely, but stocks are light and a fair fall trade is expected. No change in prices; $2,85, 60 days, for less than 200 kegs, and $2,75, 60 days, for orders of 200 kegs and upwards. Usual discount of two ℔ cent. for cash.

HORSE AND MULE SHOES—There is a fair business, although the demand is not as brisk as it should be at this particular time. No change in prices, 1⅛c ℔ ℔ cash for Horse Shoes, and 4⅛c, cash, for Mule Shoes.

NEW YORK.

The sudden decline in the price of coal has its natural effect on the iron market, and buyers are more doubtful than ever regarding the future. No decline has taken place, and, as far as we can learn, makers are just as firm in their views as they were prior to the break in the coal combination. With few exceptions, the transactions during the week have been of a purely retail character. Sales of 400 tons Nos. 1 and 2 X and No. 2 at $22 and $20 are reported, all Thomas Irons, Hoboken delivery. We also hear of a sale from second hands of 1,000 tons Port Oram Gray Forge, to go east, at a private price. We quote: No. 1 Foundry, $22; No. 2 Foundry, $20; Gray Forge, $19a20.—*Iron Age.*

PHILADELPHIA.

The market is quiet with rather a weak tone, and it is difficult to move any quantity unless at some concession in price. The demand is for small lots, for which current quotations are obtained. Gray Forge is more in demand than other grades, and we are just advised of a sale of 500 tons at $19, and smaller lots at $19,50a20, with some brands held at higher prices. No. 1 Foundry sells at $22a22 50, with exceptional sales at lower prices. We quote the market weak and unsettled as follows, viz: No. 1 Foundry, $22a22,250; No. 2, $20a21; Gray Forge, $19a20.

BRITISH IRON MARKET.

A Sheffield dispatch to the *Iron Age*, under date of August 30, reports: Scotch Pig—Since last report the market has been slightly better, but has fallen off again, and prices are weaker.

Manufactured Iron and Rails are unchanged.

PITTSBURGH PETROLEUM MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, FRIDAY, September 1, 1876.

The Crude market was firmer to-day, and prices as compared with yesterday were 10a12½c ℔ bbl higher; United certificates were quoted this P. M. at $3,72½a3,75 and immediate shipment at $3,85a3,90. Shipment would, we understand, be worth considerably more but for the scarcity of cars.

Refined was also firmer in sympathy with Crude, together with more favorable advices from the east and Antwerp, an advance of 2a3 francs was reported at the latter point. Philadelphia and Baltimore delivery at 26 asked, and 25 bid. Some of the exporters, who bought before the advance for September delivery, are reported as having resold their contracts, and it was this that assisted in bringing about the recent reaction. The outlook is very generally regarded as encouraging; it is believed that remunerative prices will prevail during the remainder of the year.

Oil Barrels quiet and unchanged; countries, $1,30; city make, $1,45a1,50, as to size.

Dry Goods.

NEW YORK, September 1.—There was a large sale of Lyons and Paris dress goods here to-day. Prices averaged fully ten per cent. above last spring, when the rates that ruled were from 50 cents to 75 cents per yard for even desirable shades, while to-day the most undesirable shades were readily sold at 55 cents per yard, and fashionable or good wearing shades sold rapidly at $1 10 per yard. The demand for duplicates far exceeded the supply, and the sale, which comprised 400 lots of silks and dress goods, sold at better prices than have been obtained for some time past. Ribbons and millinery piece goods realized prices in advance of last spring, and were duplicated largely. Black ribbons were readily disposed of at an advance of ten per cent., and very few lots were sold below the ordinary wholesale prices of the present season. The sale was well attended. Business was moderately active with commission houses, and the jobbing trade shows a steady improvement. Cotton goods were firm at unchanged prices. Prints are very active and in light supply. Ginghams move slowly. Worsted dress goods are in liberal request. Men's wear woolens and repellents are in steady and moderate demand.

VEGETINE

Purifies the Blood, Renovates and Invigorates the Whole System.

Its Medicinal Properties are

ALTERATIVE, TONIC, SOLVENT AND DIURETIC.

VEGETINE is made exclusively from the juices of carefully selected barks, roots and herbs, and so strongly concentrated that it will effectually eradicate from the system, every taint of **Scrofula, Scrofulous Humor, Tumors, Cancer, Cancerous Humors, Erysipelas, Salt Rheum, Syphilitic Diseases, Canker, Faintness at the stomach,** and all diseases that arise from impure blood. **Sciatica, Inflammatory and Chronic Rheumatism, Neuralgia, Gout and Spinal Complaints,** can only be effectually cured through the blood.

For **Ulcers and Eruptive Diseases** of the **Skin, Pustules, Pimples, Blotches, Boils, Tetter, Scaldhead and Ringworm,** VEGETINE has never failed to effect a permanent cure.

For **Pains in the Back, Kidney Complaints, Dropsy, Female weakness, Leucorrhœa,** arising from internal ulceration, and uterine diseases and **General Debility,** VEGETINE acts directly upon the causes of these complaints. It invigorates and strengthens the whole system, acts upon the secretive organs, allays inflammation, cures ulceration, and regulates the bowels.

For **Catarrh, Dyspepsia, Habitual Costiveness, Palpitation of the Heart, Headache, Piles, Nervousness and General prostration of the Nervous System,** no medicine has ever given such perfect satisfaction as the VEGETINE. It purifies the blood, cleanses all the organs, and possesses a controlling power over the nervous system.

The remarkable cures effected by VEGETINE have induced many physicians and apothecaries whom we know to prescribe and use it in their own families.

In fact, VEGETINE is the best remedy yet discovered for the above diseases, and it is the only reliable BLOOD PURIFIER yet placed before the public.

UNQUALIFIED APPRECIATION.

BOSTON, Nov. 18, 1875.

H. R. STEVENS, Esq.:

Dear Sir—During the past five years I have had an ample opportunity to judge of the merit of VEGETINE. My wife has used it for complaints attending a lady of delicate health, with more beneficial results than anything else which she ever tried. I have given it to my children under almost every circumstance attending a large family and always with marked benefit. I have taken it myself with such great benefit that I cannot find words to express my unqualified appreciation of its goodness.

While performing my duties as a Police officer in this city, it has been my lot to fall in with a great deal of sickness. I unhesitatingly recommend VEGETINE, and I never knew of a case where it did not prove all that was claimed for it. Particularly in cases of a debilitated or impoverished state of the blood its effects are really wonderful; and for all complaints arising from an impure state of the blood it appears to work like a charm, and I do not believe there are any circumstances under which VEGETINE can be used with injurious results, and it will always afford me pleasure to give any further information as to what I know about VEGETINE.

CANNOT BE EXCELLED.

CHARLESTOWN, March 19, 1869.

H. R. STEVENS:

Dear Sir—This is to certify that I have used your blood preparation (VEGETINE) in my family for several years, and think that, for Scrofula or Cankerous Humors, or Rheumatic Affections, it cannot be excelled, and, as a blood-purifier and spring medicine, it is the best thing I have ever used; and I have used almost everything. I can cheerfully recommend it to any one in need of such a medicine.

Yours respectfully,
MRS. A. A. DINSMORE,
19 Russell street.

A Source of Great Anxiety.

My daughter has received great benefit from the use of the VEGETINE. Her declining health was a source of great anxiety to all of her friends. A few bottles of the VEGETINE restored her health, strength and appetite.
